

#MarchAdventureChallenge

What are we doing?

Using people power, we are working together to share outdoor experiences with others, improve photography skills, enhance environmental awareness and maximize momentum along the way.

Kinds of images

Use the DAILY THEMES below for inspiration when you are outside and share on Instagram. Your images can be anything outdoors, sports, nature or travel related, taken at ANY point by YOU in March 2018. Try to tell a story with your image, not just words. Bonus: avoid post-editing, cropping or filtering.

Are there rules?

Nah, how about suggestions instead? Have fun! There are no prizes other than enjoying the fresh air, making new friends and learning some new skills. One request: please do not use branding or sales information for the sake of hashtag integrity. **Don't forget to use hashtag #marchadventurechallenge for your INSTAGRAM posts. Follow @apothecarymuse for tips and examples.**
